SUMMARY

Frontend-focused full-stack developer working mainly with TypeScript, Next.js and Spring. I take web services from user interviews through UI, authentication and deployment.

SKILLS

- **Frontend:** TypeScript, React, Next.js, TailwindCSS, NextAuth, Chart.js
- **Backend:** Java, Spring Boot, Spring Security, JPA, Prisma, MySQL
- **Infra:** AWS (EC2, S3), Docker, Nginx, GitHub Actions
- **AI and mobile:** Gemini API, OpenAI API, LangGraph; Swift, SwiftUI

PROJECTS

My Golden Kids: senior pet care and spending service Mar – Apr 2026, team of 5

- Interviewed 20 senior pet owner groups and carried the findings into the service's information architecture.
- Built JWT authentication with access and refresh tokens using NextAuth and Spring Security.
- Traced a production authentication failure through Next.js middleware, the BFF proxy, Nginx and Spring Security to find the failing layer.

Aiapeuro: gift planning web service for parents Jan – Feb 2026, team of 8

- Set up the design system with Tailwind v4 color tokens and `next/font`, and built shared UI components.
- Fixed bottom navigation tabs that changed state without routing, using `usePathname` and `Link`.
- Replaced per-child subqueries with two fixed batch queries in a Server Actions and Prisma onboarding flow.

Stube: focused YouTube playlist player for learners Oct 2025 – present, solo

- Separated presentation, application and infrastructure layers in Next.js, handling data and auth in Server Actions.
- Connected Google OAuth through NextAuth to fetch each user's YouTube data automatically.

FinAdGen: AI agents for financial ad copy (JB Financial Group Fin:AI Challenge) Jun 2026, team of 2

- Led the LangGraph pipeline redesign so copy that fails compliance checks retries without triggering paid image generation.

EXPERIENCE

- **National Institute of Korean Language**, Intern (non-developer), Mar – Aug 2025: cleaned language data and automated file checklists with Excel VBA.
- **National Pension Service**, Intern (non-developer), Apr – Jul 2022: handled public inquiries and built a document review macro.

EDUCATION

- **Digital Hanaro** (K-Digital Training with Hana Bank), full-stack development, Oct 2025 – Apr 2026
- **SeSAC**, full-stack program with a frontend track, May – Oct 2025
- **Apple Developer Academy @POSTECH**, iOS development, Mar – Dec 2024; shipped 2 App Store apps
- **Kyung Hee University**, BA in Korean Language and Literature, Feb 2022; GPA 3.77 / 4.3
